

# 10 TIPS TO GET REAL SMILES

1. Have your camera out and ready to go at all times. You want to catch all the fun moments.

2. Don't force the smiles. Don't tell them to smile or say cheese. Get them moving, playing, and talking, and capture the smiles.

3. Take lots of pics! Kids move a lot and fast, so keep snapping and you will get a variety of expressions.

4. Clear out clutter and pick up, so it will be less of a distraction in your photos.

5. Get down on their level. Yep, get down on the ground. See what the world looks like through their eyes.

6. Sneak up when they are not expecting it you will capture some awesome shots.

7. Ask your children questions and engage in conversation. Document their expressions.

8. When indoors, take pictures by the windows if possible. Natural light is best for achieving great photos.

9. Have your children be silly in their pictures and have them come up with their own poses.

10. Most important, just let kids be kids!
